LIVE STOCK MEN TO MEET

Important Papers to Be Read at Hilo.

The Annual Meeting Is Arranged for Nov. 19.

Many Matters of Interest to Be Discussed and Officers Elected for Next Year.

The annual meeting of the Hawaiian Live Stock Breeders' Association will be held this year at Hilo, it being the policy of the Association to not confine such gatherings to the capital city as so many of the interests attached to the organization belong to the other islands, Hawaii in particular being the residence of many members.

Spreckels Hall, Hilo, has been chosen as the meeting place, the date being set for Thursday, November 19, at 9 a. m. After the regular business and the annual reports of President D. P. R. Isenberg and Secretary A. F. Judd the election of officers for the ensuing year will take place, followed by a series of papers on stock and their treatment, selection and feeders, that promises unusual interest.

The lately brought forward industry of algaroba beans for fodder will be treated by President Isenberg in a special paper which is being looked forward to with considerable interest as the results of Mr. Isenberg's practical experiments will be incorporated in the essay.

Mr. Louis von Tempsky of Maui has been giving much attention to the new and dangerous plant pest Pamakani and will read a paper on the subject.

One extremely interesting and important paper has been prepared by Jared G. Smith upon the "Relation of the Federal Experiment Station to the Graziers." Another essay which has been looked forward to is that of the Government entomologist, R. C. L. Perkins, upon the "Progress of the Lantana Bugs Experiment." Mr. Perkins's late operation may prohibit him from sending his paper to the meeting, but it will in any event be published when received.

The full list of papers which will be presented by their authors is as follows. It is expected that all stock breeders on Hawaii will attend the meeting:

1. J. Monsarrat, "Island Horses."
2. John Cullen, "Dairy Fodders."
3. D. P. R. Isenberg, "Kiaue Fodder in the Dairy."
4. F. G. Krauss, "Modern Methods in Animal Husbandry. With Suggestions For Local Conditions."
5. George C. Munro, "Devon Cattle, Their Adaptability to Our Low Level Ranges."
6. A. W. Carter, "The Advantages of Spraying."
7. L. von Tempsky, "Pamakani, a Dangerous Plant Pest on the Range."
8. Jared G. Smith, "The Relation of the Federal Experiment Station to the Graziers."

J. T. Arundel, manager of the company developing guano on Ocean Island, is expected in the Ventura from San Francisco tomorrow, to leave in the steamer Isleworth for his island this week. Mr. Arundel is related to Hawaiian history as the man who sold the steamer Explorer to the Hawaiian Government in 1886. The purchase was transformed from schooner to bark rig and made the Hawaiian cruiser Kaimiloa of Samoan mission fame.

SCOTT'S EMULSION

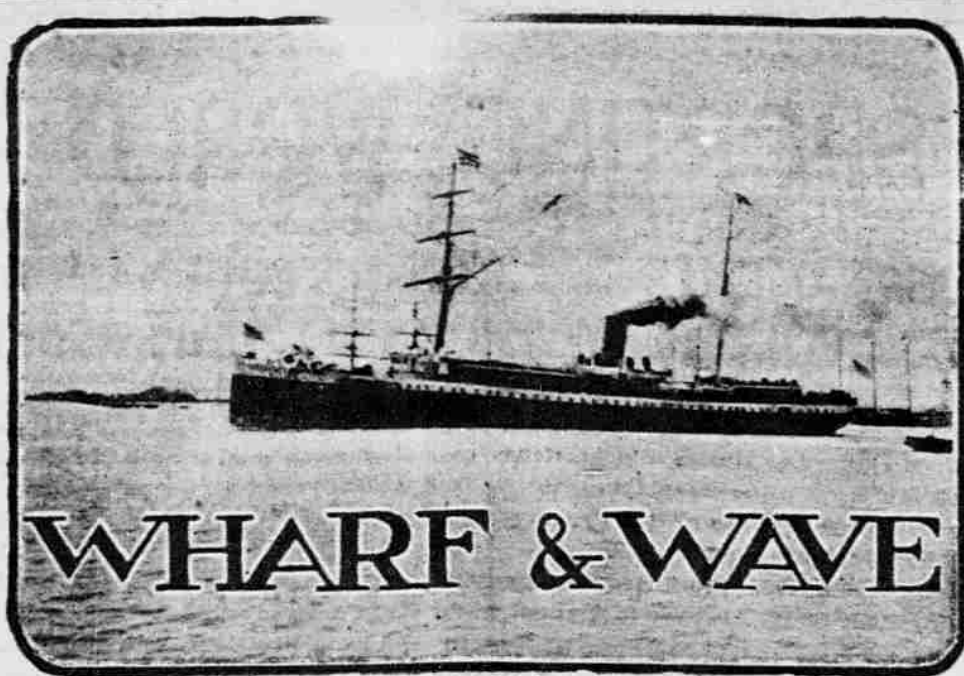

makes pale, thin children fat and chubby. Overcomes wasting tendencies and brings back rosy cheeks and bright eyes.

It's surprising how quickly children respond to Scott's Emulsion. It contains just the element of nourishment their little bodies need. They thrive on it.

Even a few drops in the baby's bottle have a noticeable effect for good. Nothing better than Scott's Emulsion for growing children.

Why do substitutes for Scott's Emulsion cost less? Because they're worth less. With one you wait in vain for the benefits you had looked for. In Scott's Emulsion you get them. It never disappoints. That's worth the few cents difference in cost.

We'll send you a sample free upon request. SCOTT & BOWNE, 409 Pearl Street, New York.

PROTET SAILS FOR TAHITI TODAY.

The French cruiser Protet sails for Tahiti this afternoon at 4, after a stay in Honolulu harbor of about a week. The shortness of the stay prevented the officers from giving a reception or informal function on board in return for hospitalities extended to them by townfolks, but the Protet may be back here again before her two years' cruise in Pacific waters is up, and the promise is made that the vessel will be given to a round of festivities then. The officers were charmed during their stay and with the people they met.

On Sunday the Commander and eleven officers were taken over the line of the Oahu R. R. by Acting Consul Raas, visiting a sugar plantation and dining at the Haleiwa Hotel. On Sunday evening Captain Adigard and his executive officers dined with Consul and Mrs. Raas at their Punahou home, the Captain returning the compliment aboard ship last night for Consul and Mrs. Raas.

DRUNKEN SAILOR TOOK A PLUNGE.

There was a lively time in the vicinity of the British steamer Isleworth on Saturday night, when several of the crew participated in aquatic sports not down on a regular program.

One of the men returned to the vessel from a shore visit about midnight, considerably the worse for a convivial bout with John Barleycorn. He went on deck and then plunged overboard. Those on deck were startled, but without waiting to determine the motive, a man jumped over after his comrade. He rescued the intoxicated one and managed to pull him up into a punt lying near the stern where the propeller is being attended to.

Once on the punt the rescued sailor refused to be taken aboard, insisting upon his right to remain where he was all night and with that he curled himself up in his wet clothing and went to sleep, remaining thus until morning.

NATIVES BUILD A WALL UNDER WATER.

The usefulness of the native for working in water is demonstrated in the repairs to the sea-wall under the Brewer wharf. The planking has been ripped off, and coral blocks are lowered by tackle into the water. A native takes hold of the rock, goes under water with it, works it around, adjusts it properly, consuming what appears to bystanders as a couple of minutes, but in reality almost half that time, and then comes to the surface for more air. This work has interested almost everybody frequenting the wharves, and it gives ample evidence that the native is thoroughly at home in the water.

WILL BRING BACK PLANTATION CARGO.

The Wilder steamer Kaiulani departed for Kaunakakai, Molokai, last evening at 5, carrying two passengers. The vessel was sent to the Molokai port to take off a large amount of piping and a big steel plow formerly owned by the defunct American Sugar Company.

WILL GO FOR COAL.

By cable yesterday, Captain Olsen of the British ship Brodick Castle received orders to return to Newcastle for another coal cargo, instead of going, as is usually the case with foreign boats, to the Sound first and then back to Australia. This is the first time in the history of British vessels here that such an order has been received.

NOTES.

The bark S. C. Allen will sail for the Sound today in ballast. The Doric will bring six days' later mail and newspaper files. The Pacific Mail liner Siberia arrived at San Francisco on Sunday.

The American barkentine Jos. L. Eviston arrived yesterday from Newcastle, 53 days out.

The Coptic may arrive here on Thursday from Yokohama although scheduled to come in on Friday.

Broker Waldron has a cargo of coal coming from Newcastle in the American brig Geneva, now 36 days out.

The barkentine Echo finished unloading her coal cargo yesterday and will sail shortly for Astoria to load lumber.

The Sierra from the Colonies is due this morning, and will probably sail in the afternoon for San Francisco. The Doric is looked for tonight from the Coast.

The U. S. Immigration officers stationed here will endeavor to impress Japanese arriving from Japan that they must truthfully answer questions or be subject to arrest for perjury.

FIRE CLAIMS IN FEDERAL COURT

Several fire claim awards were brought into the United States District Court yesterday for adjudication. William F. MacLennan, U. S. Treasury agent sent here to pay the million dollars appropriated by Congress, is plaintiff and various disputing claimants the defendants in chancery suits for the purpose mentioned.

There is an award of \$456.56 adversely claimed by Tong On Kee and M. S. Grinbaum & Co.

The sum of \$97.49 out of an award of \$1440 is disputed between K. Meek, Chang Shee and Chong Lum.

The estate of James Campbell and Tong Sing Co. dispute the sum of \$1832.75 out of an award of \$2700.

It is for the court to decide, in each case, which claimant is entitled to payment of the amount in controversy.

FRED BECKLEY FAVORS THE REPUBLICANS.

(Continued from page 1.) Home Rulers who make promises only to break them. One day the Home Rule party is putting up a candidate and the next day pulling him down and putting up another one. The Republican candidates are nominated in open convention and once a candidate is nominated no man has the right to take him down and put up another. The Republican party therefore was the party of the people, while the Home Rule party was a party for bosses.

MORE GOOD TALKS.

Geo. Renton made his usual good speech, and Hailola, a converted Home

Ruler, followed. Isaac Sherwood was followed by Wm. Olepan. J. W. Pratt said that Mr. Renton had compared the county government to a machine and he (Pratt) was the man who shovelled coal into the furnaces to make the machine go and if he stopped, the machine would stop and work would have to be shut down. The voters should understand they were not only voting for fourteen men, but for about 350 who held positions in the different offices and also for about 1000 employed on the roads.

Mr. Hocking, R. N. Boyd and Rawlins also spoke.

During the meeting stereopticon views were thrown on a screen showing pictures of the different candidates and public men. Gov. Sanford B. Dole's portrait was greeted with loud and prolonged cheering as were also those of Clarence L. Crabbe, Geo. R. Carter and William Henry. The motto, "Geo. R. Carter, our choice for Governor," was also cheered.

REAL "SHIRT SLEEVE DIPLOMACY."

When the American naval officers were arrested on the charge of making a row in Venice there was much delay on the part of the American representatives in helping them out of jail. Friends of some of the officers called on the president and protested. The president listened. Then he took a piece of paper and wrote this note to John Hay, secretary of state: "Dear Hay:—What is my duty? It seems to me he should be stepping lively."

NOT CARPET-BAGGERS.

"Well, the airs of you!" sneered the monkey. "You must think you're swell." "My dear sir," quietly replied the elephant, "we have always been fashionable. Why, when everybody had to move out of the Garden of Eden we were the only ones who had trunks."—Philadelphia Press.

READ ALL OF THIS BY AUTHORITY.

You Never Know the Moment When This Information May Prove of Infinite Value.

(From the Sydney, N. S. W., Herald.) It is worth considerable to any citizen of Honolulu to know the value and use of a medicine, for if there is no occasion to employ it, in the meantime, frail humanity is subjected to so many influences and unforeseen contingencies that the wisest are totally unable to gauge the future. Know then that Doan's Ointment will cure any case of hemorrhoids, commonly known as piles, or any disease of the cuticle or skin, generally termed eczema. One application convinces—a continuation cures. Read this proof:

Mr. William Gilliver, of the well-known firm of Gilliver & Curtis, railway and general contractors, and whose private address is "Avoca," Bankstown, a suburb of Sydney, N. S. W., has written the following unsolicited letter, which we herewith publish in full:

Messrs. Foster, McClellan Co., 76 Pitt St., Sydney, N. S. W., February 14, 1899.

Dear Sirs:—In justice to you and suffering humanity I write to say that I suffered from itching piles for 22 years. I tried many doctors and pretty well all kinds of patent medicines, but got relief for a short time only. Seeing your Ointment advertised, I bought a pot and did not use more than one-half of it, not six months ago, and I am perfectly cured. You may use this as you wish.

Yours gratefully,
WILLIAM GILLIVER.

Doan's ointment is sold by all dealers at 50 cents per box or will be mailed on receipt of price by the Hollister Drug Co., Honolulu, agents for the Hawaiian Islands.

INTEREST ON LOAN SHAVED BY CARTER

Secretary Carter has managed a reduction of one-half per cent. interest from the maximum of five, and will be home with printed bonds for delivery here in the steamer Siberia on the 30th inst. For the purpose of uniformity between New York and Honolulu, Treasurer Kepoikail requests advice from Secretary Carter as to the form of advertisement for bids under the new conditions.

The following cable correspondence took place yesterday:

New York, Oct. 12.
